

## VSI/e Year overview 2021

### 1. Activities in 2021

#### *January 29<sup>th</sup> – VSI/e GMM*

On the 29th of January last year, we had our first online GMM with more than 40 people. We started with the meeting to finish with a nice beer tasting evening. Martin, the brewer of Muifel joined us for the beertasting and explained the different beers we tasted. Before that Yoran explained about home beer brewing and shared his knowledge and expertise with the VSI/e. A great evening with a lot of different beers.

#### *March 8<sup>th</sup> – Online Escape Room*

Last year the VSI/e had an historical day with our first digital event, this year we had the privilege to do our first online escape room. The VSI/e board took their best effort to produce several rounds of very interesting, and quite challenging, rounds in the escape room to unravel the mystery. It was a really nice event with a diverse group of people, but of course there could be only one winner.

Hopefully in 2022 we can also surprise our VSI/e members with a new challenging game, hopefully in real life!

### ***September 4<sup>th</sup> – VSI/e BBQ @AG***

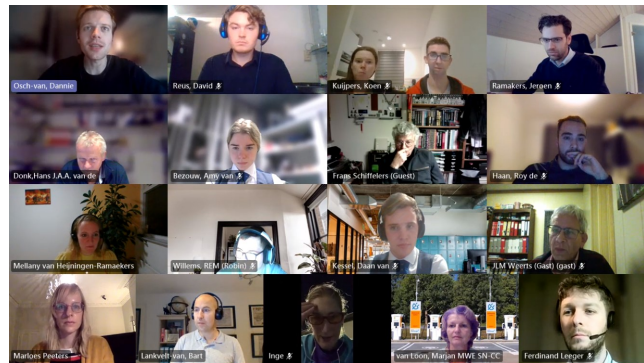

Our first (and only) live meeting this year, the VSI/e BBQ with partner, on a Saturday afternoon at the Academisch Genootschap in Eindhoven. The weather was great, the food was good, so over 30 alumni took the effort to travel to Eindhoven. It was great to catch up with one another; the general consensus was that everyone was very happy that such a live activity could go through. The chef had prepared a delicious barbecue including shrimps, oysters, fish, beef, sausages and a couple of healthy salads to balance out the beer and wine. It was good to see that alumni of all ages were present and took the opportunity to mingle. Everybody had a great time and we hope to have such a great in 2022 as well.

### ***November 17<sup>th</sup> – Online Career evening***

On November 17th the yearly career evening was organized by the VSI/e. Due to the Covid-19 situation, unfortunately again the career evening was an online event. We had an excellent speaker line-up for this year's career evening. The speakers were Marjan van Loon, President-Directeur Shell Nederland, Marloes Peeters, Deputy Director of Chemical Engineering and Senior Lecturer at Newcastle University and Ferdinand Leeger, Patent Attorney at Octrooibureau Los en Stigter B.V.. With almost 50 participants, VSI/e and Japie members, it was again a great success!

We hope to see all of you in 2022!

## 2. More

- There were 4 board meetings.
- The VSI/e board co-operates with T.S.V. 'Jan Pieter Minckelers (Japie). De chairman of Japie, Jord Jansen, is general boardmember of the VSI/e. Japie is recruiting members and extraordinary members. The VSI/e is sponsoring Japie.
- Due to COVID-19 the following activities were canceled or postponed: Theme evening, and the network workshop.
- Furthermore, an online Pub quiz was promoted, but this was postponed due to a low subscription rate.
- The Plus-Cie worked on the next theme evening, this was postponed due to illness of a key speaker, the committee includes Henk van 't Blik, Bram Keijzers, Job Vissers and Koen Kuijpers.
- Relevant information about the association was placed on our website and LinkedIn. Invitations for activities were communicated through e-mail and LinkedIn. Members subscribed via our website.
- Conform the decision at ALV 2014 master students were recruited as extraordinary members.
